## ACADEMIC EXCELLENCE

Dedicated teachers are the foundation of our award-winning instructional model that supports students' academic and personal growth in an active and engaged learning environment. Small class sizes allow for personalized curriculum based on individual student needs, including support for special education and English-language learners.

## STUDENT CULTURE

We start each school day with three goals in mind: every student feels truly loved and cared for, learning is both rigorous and joyful, and students are prepared for success in college and beyond.

## ACTIVITIES & CLUBS

Learning doesn't end when the final bell rings. Our students can explore their intellectual and creative passions through a variety of extracurricular activities including:

- Student Leadership Opportunities
- After school Enrichment Clubs
- College Counseling and Trips
- Intramural and Competitive Sports
